

## Two boilers with 3,000 total watts

**means unlimited sustained production.**

LA SAN MARCO 85 FLEXA JUST RAISED THE BAR FOR ONE-GROUP MACHINES.

85 FLEXA

All-metal construction. No plastic!

Width: 15"  
Depth: 21.5"  
Height: 18.5"

Dedicated steam boiler and 1750 watt element provide uninterrupted steaming capacity.

Optional self-contained operation. Take the Flexa 85 anywhere!

Integrated 1250 watt brew boiler eliminates boiler-to-group temperature variance.

Dynamic pre-infusion easily selected for individual shots.

Pre-program your single & double shots or operate manually

Flexa portafilters create superior pod shots or take ground coffee and tea.

Michaelo is now taking orders for the next shipment of La San Marco Flexa machines.
